

Cadence Ford

Teen Dating Violence Awareness Month

About

In collaboration with [iThrive Games](#) and [Playmatics](#), One Love produced our first-ever video game, *Cadence Ford*. *Cadence Ford* empowers youth with the skills and knowledge to help a friend in an unhealthy relationship. Players are invited to travel back in time to uncover what caused a rift in the small town. Through this journey, teens explore three story lines that convey the complexity of intersectional identities and relationship abuse.

As players figure out how to successfully confront their friends in the game and offer help, they practice having difficult, life-saving conversations while familiarizing themselves with the unhealthy behaviors that may surface in relationships. The game expands on the One Love Foundation's honoring of Yeardeley Love and mission to bring life-changing relationship education to young people. The game takes 90-120 minutes to complete, start to finish.

To download *Cadence Ford*, use one of the links below or search "*Cadence Ford*" in the App Store and Google Play.

- For Android users: <https://play.google.com/store/apps/details?id=com.OneLove.Cadence>

Teen Dating Violence Awareness Month Challenge!

In honor of Teen Dating Violence Awareness Month, we are encouraging youth around the country to download and play *Cadence Ford*. As an educator or staff member at a community-based organization, please help us in sharing *Cadence Ford* with your community.

Feedback? Let us know.

Did youth you work with have an "aha" moment? Do you have any feedback to improve the game experience? Email Madeline Hopper at madeline.hopper@joinonelove.org with details!
